# HOW CLEAR

Is our vision?

Assessment  
20/20

A jointly presented  
conference

## Focus on current issues for educators

How do we shift our **FOCUS** from Grades to Learning?

How do we **MAGNIFY** Creative and Critical Thinking?

How do we **VISUALIZE** Assessment in an Online World?

## The '*must attend*' virtual conference experience this school year!

**3 Part Series** - November 21, 2020 - January 23, 2021 - May 8, 2021

The first conference in this series will include;

- a **Panel Discussion** featuring local and national educational leaders,
- multiple **Breakout Sessions** facilitated by educators from Alberta and across the country, and
- a **Final Keynote** to round out the day!

A Collaborative Effort between  
the **Alberta Assessment Consortium**

and

the **Canadian Assessment for Learning Network**

## Why a 3 Part Series?

In Alberta, and across the country, **Professional Development** will be at the center of educators thoughts as they plan and prepare to implement curriculum in a vastly altered educational system. Reflection and Sharing will be vital components in supporting one another through these unprecedented times. Our **VISION** is:

**Nov 21st** - Bring together like-minded educators to dig deep into this new Educational Paradigm.

**Jan 23rd** - Share what worked, what didn't, and identify next steps in our learning and practice.

**May 8th** - Celebrate and share what we have learned, strengthen our connections, and plan for moving forward in our learning.

Registration opens in September!
